

TERMS AND CONDITIONS OF SUPPLY OF SERVICES- GAS TECH HEATING LIMITED

1. Basis of Contract

1.1 The quotation and accompanying Quote Specification ("Quotation") constitutes an offer by Gas Tech Heating Ltd ("Company") to supply the Services subject to these Conditions.

1.2 The Quotation shall only be deemed accepted when the Customer:

- signs and returns the Quotation; or
- confirms acceptance in writing by email.

Upon acceptance, a legally binding contract ("Contract") shall come into existence on that date ("Commencement Date").

1.3 A Quotation is valid for 14 days only from its date of issue. Thereafter the Company may withdraw or revise it, including prices.

1.4 Quotations, Unforeseen Conditions and Additional Works

Quotations are based on a visual inspection of the Property and the information provided by the Customer. As certain defects, conditions or requirements may not be apparent until work has commenced, the Company reserves the right to identify additional works that are reasonably necessary to complete the Services.

Where unforeseen conditions, defects or additional works arise, the Company shall notify the Customer as soon as reasonably practicable. Where reasonably possible, the Company will provide an estimate of the additional costs and obtain the Customer's agreement before carrying out such works.

However, where the Company reasonably considers that additional works are immediately necessary to:

- ensure the safety of any person or property;
- comply with any applicable law, regulation or industry standard;
- prevent damage to the Property, the installation or associated systems; or
- rectify a defect discovered during the works where it would be unsafe or technically inappropriate to leave the installation in its existing condition, the Company may carry out such additional works without the Customer's prior approval only to the extent reasonably necessary to make the installation or Property safe, prevent damage, or comply with applicable legal or regulatory requirements.

Any additional works beyond those immediately necessary purposes shall not be undertaken without the Customer's prior agreement.

The Customer shall be responsible for the reasonable costs of any additional works carried out under this clause, together with any reasonable extension of time required to complete the Services.

1.5 Where material costs increase after the Quotation date but before purchase, the Company reserves the right to amend pricing accordingly.

1.6 Customer-supplied materials:

- The Company accepts no liability for defects, incompatibility or delays relating to materials supplied by the Customer.
- Any additional labour required due to defective or incorrect materials shall be charged at standard rates.
- Warranty registration for customer-supplied products is the Customer's responsibility.

2. Supply of Services
